DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on May 19, 2008 has been entered.

Allowable Subject Matter

2. Claims 1-18, 20, and 22-29 are allowed.

3. The following is an examiner's statement of reasons for allowance: The Patent to Geving et al. (US 6,814,926) teaches selective laser sintering of powder blend in the field of solid freeform fabrication, Benda et al. (US 5,530,221) teaches controlled laser sintering of powder in the field of Stereolithography to perform rapid prototyping of product mold and Fujita et al. (US 6,641,385) teaches selective coagulation of metal powder by irradiation with laser beam. The prior art of record fail to teach and/or suggest applying a layer of anti-diffusion substance comprising a powder over an entire surface of at least one face of the primary parts; localized sintering of the anti-diffusion substance, without melting the powder, in a predefined pattern by the heating that

results from localized application of a laser beam directly onto said powder along a track made up of the at least one zone prior to the stacking-up, thereby reducing the probability that the anti-diffusion substance will accidentally enter into areas where diffusion bonding between the primary parts is desired. Additionally, the process reduces the probability that the anti-diffusion substance will fall off of areas where diffusion bonding is not desired.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion
